

# 2010 Remos GX Pricing from SportPlanesFlorida.com

## Aviator I

AVIATOR I (2010)- \$132,900

The REMOS GX – AVIATOR I package offers the best balance between utility and scalability based on the needs of the pilot. Developed around the popular DYNON EFIS flight display system, the AVIATOR I features advanced communication and transponder capabilities that make this aircraft ready for any adventure “out of the box”. Moreover, this premium core package makes further customization easy, economical and flexible. By building on the AVIATOR I core package, an extensive list of optional equipment makes the REMOS GX the preferred recreational and utility aircraft.

<b>Glider Tow Release System</b>	\$1,900
<b>Folding Wing Support Kit</b>	\$450

## Explorer

Explorer (2010)- \$127,900

The REMOS GX – EXPLORER features the base VFR avionics package, allowing a building block approach to suit the needs and budget of the operator. Designed primarily for the Flight Training environment and Special Mission use, the GX- EXPLORER also remains popular with Aviation purists who want minimum instrumentation and maximum flexibility. In addition to required VFR instrumentation, the EXPLORER includes a nice basic Comm/Transponder package that opens up all airspace possibilities to the REMOS GX. So whether you are a government authority looking for an economical platform for your airborne operations, a Soaring Club looking for a new tow plane, or a Leather-Helmet-and-Silk-Scarf Aviator charging around the skies with the doors off, the GX – EXPLORER is a wise entry-level option to the performance, economy and safety of a REMOS GX.

### STANDARD EQUIPMENT
